BUTLER, MISSOURI, THURSDAY, DECEMBER 29, 1904.

NO. 9

Mr. Otto A. Fleissner's **KIDNEYS** WERE SOAKED WITH **CATARRH.**

Pe-ru-na Promptly Cured Him.

Mr. Otto A. Fleissner
Rainer Grand Hotel,
Seattle, Washington.

Mr. Otto A. Fleissner, American Epicurean, late Chef to Col. W. J. Coady, (Buffalo Bill), now chef at the Rainer Grand Hotel, Seattle, Wash., writes:

"I suffered with kidney and bladder trouble until life did not seem worth living. I had tried many medicines, but did not get any relief until I took Peruna. It was really wonderful how much better I was after I had used this medicine only a week. I did not expect that it would help me permanently, but as long as it was doing me good I continued to use it. At the end of six months I found to my relief that it had rid my system of all poisons, and that I was cured to stay cured. You certainly have a splendid medicine and I gladly endorse it."—Otto A. Fleissner.

Catarrh of the Kidneys a Common Disease—Kidney Trouble Often Fails to Be Regarded as Catarrh by Physicians.

Catarrh of the kidneys is very common indeed. It is a pity that this fact is not better known to the physicians as well as to the people.

People have kidney disease. They take some diuretic, hoping to get better. They never once think of catarrh. Kidney disease and catarrh are seldom associated in the minds of the people, and, alas, they are not very often associated in the minds of the physicians. Too few physicians recognize catarrh of the kidneys. They doctor for something else. They try this remedy and that remedy. The trouble may be catarrh all the time. A few bottles of Peruna would cure them.

PE-RU-NA CURES CATARRH OF THE KIDNEYS.

Pe-ru-na Removes the Cause of the Kidney Trouble.

Peruna strikes at the very centre of the difficulty by eradicating the catarrh from the kidneys. Catarrh is the cause of kidney difficulty. Remove the cause and you remove the effect. With unerring accuracy Peruna goes right to the spot. The kidneys are soon doing their work with perfect regularity.

Thousands of Testimonials.
Thousands of testimonials from people who have had kidney disease which had gone beyond the control of the physician are received by Dr. Hartman every year, giving Peruna the whole praise for marvelous cures.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

CONFEDERATE'S SON GETS JOB OVER PROTEST

Mr. Roosevelt Will Also Visit Richmond.

Washington, Dec. 26.—The President today accepted an invitation to visit Richmond, Va., and appointed J. E. B. Stewart, of Portsmouth, Va., son of Gen. "Jeb" Stuart, the famous Confederate cavalry leader, United States marshal for the eastern district of Virginia.

This means that the president will make two trips through the South next summer one by way of Louisville to San Antonio Tex., to attend the reunion of the Rough Riders, and the other by way of Richmond to his mother's old home in Roswell Ga. On the second trip a number of other southern cities, invitations from which practically had been declined, will be visited. No date has been set for the trip to Roswell but it will probably be made early in the summer.

The invitation was extended by Mayor McCarty of Richmond and a delegation of city officials and prominent citizens. They were warmly received at the White House. The appointment of Mr. Stuart was a surprise. Morgan Treat who has held the office for several years and was a candidate for reappointment, was asked to resign two days ago. Mr. Stuart's appointment was sent to the Senate before Mr. Treat's resignation was received.

A few days ago President Roosevelt promised to appoint a grand son of "Stonewall" Jackson to West Point. Southerners are now led to believe that he intends to honor the memories of famous men of the Confederacy in every way that he can.

The President is accused of breaking faith with the Republican organization in Virginia by appointing Stuart. It is alleged that he promised to permit the Republican members of the Virginia legislature to choose a man. It is said that he was guided solely in the manner by ex Congressman John S. Wise of Virginia, now living in New York, who scordially disliked by leaders of both parties in Virginia.

Virginia Republicans here say that Stuart has, up to within less than a year, been a Democrat and is unknown by a majority of the leaders.

The Probate Judge Held Over.

Guthrie, Ok., Dec. 25.—P. C. Simmons, attorney general of Oklahoma, in holding to day that the failure of a person elected probate judge to qualify in the time fixed by law created no vacancy in the office, disclosed a remarkable state of affairs in Washita county. R. T. Sitterley, Democrat, was nominated for probate judge, but fell dead of heart disease while campaigning. The Democratic central committee named L. R. Cowan in his place and Cowan was elected. Several weeks ago, without having qualified for the office. Cowan was stricken with apoplexy and died. Inasmuch as the period of incumbency is not limited by law Mr. Simmons held that the incumbent R. A. Billups, will hold over until the next general election. Billups is the Democratic national committeeman for Oklahoma.

Banker Would Buy Immunity.

Lincoln, Neb., Dec. 23.—The purchase of immunity from prosecution by the return of alleged stolen bank funds is a proposition made to the authorities of Holt county, Neb., by the fugitive president and cashier of the bank. President McGreevy is now under arrest at Phoenix Ariz. His offer is to return more than \$40,000 for a dismissal of the case against him. Mrs. Hagerly has supplemented by tending property and money to the value of \$25,000 if the Holt county prosecutor will give her husband immunity. Most of the directors are insisting upon prosecution and the plan to purchase immunity has little hope of success.

STATE CHARITY BOARD RECOMMENDS NEW LAWS.

Abolition of Stripes For Convicts and Reforms in Conduct of Institutions Urged.

Jefferson City, Mo., December 21.—The Missouri state board of charities and corrections held its final meeting for the year at the capitol today. After the passage of a resolution commendatory of Governor Dockery and declaring that all of the state's institutions were in satisfactory condition, the board adopted the following recommendations, which will be incorporated in greater detail in the report to be submitted to the general assembly:

The abolition of stripes, as used universally in the penitentiary, the same to apply only to long term convicts; others to be uniformed in some garb of suitable color to designate the class of convicts and terms of sentence.

The gradual employment of convict labor to the immediate interests of the state, in preference to foreign industries.

A law prohibiting county courts from keeping insane patients in the poor house.

A law conferring upon superintendents of all state eleemosynary institutions the power of nominating all subordinate officers, and a law compelling all state institutions to purchase supplies from each other when possible to do so.

A law creating the office of state architect, who shall prepare plans and specifications for all state buildings, or a law authorizing the employment of a practical inspector of buildings, who shall pass on all plans and specifications of new buildings.

That the law shall be so amended that the sentence or boys to the training school at Boonville shall be limited to their minority.

That the state shall assume the cost of maintaining the inmates at the boys training school and the girls' industrial home.

A law making it a felony for attendants at hospitals for the insane and colony for the feeble-minded and epileptics, to abuse patients.

That the salary of the superintendents at the girls' industrial home be increased from \$900 to \$1500.

The enactment of an indeterminate sentence law.

The appointment of parole agents for the boys' training school and girls' industrial home.

TAINTED BLOOD

Columbus, Ohio, May 19, 1903.
Some four years ago I was suffering from impure blood and a general run-down condition of the system. I had no appetite, was losing flesh, and had an all-gone tired feeling that made me miserable. I began the use of S. S. S., and after taking seven or eight bottles my skin was cleared of all eruptions and took on a ruddy, healthy glow that assured me that my blood had been restored to its normal, healthy condition. My appetite was restored, as I could eat anything put before me, and as I regained my appetite I increased in weight, and that "tired feeling" which worried me so much disappeared, and I was once again my old self. I heartily recommend S. S. S. as the best blood purifier and tonic made, and strongly advise its use to all those in need of such medicine. VICTOR STUBBS, Cor. Barthman and Washington Aves.

Wheeling, W. V., May 28, 1903.
My system was run down and my joints ached and pained me considerably. I had used S. S. S. before and knew what it was, so I purchased a bottle of it and have taken several bottles and the aches and pains are gone, my blood has been cleared and my general health built up. I can testify to it as a blood purifier and tonic. 1533 Market St. JOHN C. STRAIN.

If you have any symptoms of disordered blood write us and our physicians will advise you free. Our book on blood and skin diseases sent free. The Swift Specific Company, Atlanta, Ga.

The Difference in Cost

between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cause doctors' bills many times this.

Dr. PRICE'S cream Baking Powder

is the most economical in the end, because it goes further in leavening and insures perfect, wholesome food.

When ordering of the grocer always call for Dr. Price's Cream Baking Powder by name for good health and good food. It makes the finest cake, puddings, flapjacks, biscuits and bread.

NOTE.—There are many imitation baking powders which are sold from five cents to twenty-five cents a pound. They should be carefully avoided as they are made from alum and are unhealthy.

RESULT A HUNG JURY.

No Verdict Reached in the Trial for Murder of the "Florodora" Chorus Girl.

New York, Dec. 22.—Miss "Nan" Patterson, the "Florodora" chorus girl, probably will have to stand another trial for the murder of "Caesar" Young, the turfman, who was shot to death while in her company in a New York cab. The jury which took the case under consideration yesterday afternoon reported shortly after 11 o'clock this morning that it was unable to agree. The jurors were sent back for further deliberation and at 12:51 o'clock reported that an agreement was impossible. The court then discharged the jury.

Kaiser is Ready to Fight the English.

Berlin, Dec. 24.—Incensed by the warlike utterances of the semi-official British press, the Kaiser has ordered his diplomatic representative in London to inform King Edward's cabinet that if England wants hostilities with Germany he is quite willing for trouble. Otherwise he asserts that there must be no more such publications as those of which he complains in the past.

The articles to which the Kaiser refers were printed for the most part in the Army and Navy Gazette and culminated in the declaration that the German navy is so rapidly becoming a menace to British interests that war, with the destruction of the Kaiser's fleet, was desirable before it became still more formidable. The German Emperor announces that his country has no idea of abandoning the development of its navy no matter how alarming the situation may appear to its neighbors.

An Irresistible French Gun.

Paris, Dec. 24.—Great interest has been caused by recent experiment with a new cannon, a secret invention. The most recent test was made at Havre last Sunday in the presence of M. Bertheaux, minister of war, and fifty deputies and senators. The new cannon has a caliber of 240 millimeters (9 1/2 inches), firing a projectile weighing 163 kilograms (359 pounds). The principle merit of the invention is its extreme simplicity of mechanism. Three men can operate it. The shell fired has a muzzle velocity of five hundred meters (1,940 feet). So powerful is the force of the shot, it is said, that no ship of any navy could withstand it. The cost of the cannon is said to be \$100,000, including its quota of projectiles.

Took Another Russian Fort.

Tokio, Dec. 24.—A dispatch received by telegram to-day from the Japanese army before Port Arthur says: "The right column of the army at 5 o'clock this morning, taking advantage of the enemy's excitement drove the enemy off an eminence north of Housanyentao on Pigeon bay and occupied the fortified position. At 7 o'clock we dislodged the enemy from a height upon the peninsula west of Housanyentao, which we occupied, capturing one small gun. After the Japanese occupation of the position, the enemy made a counter attack, but was immediately repulsed. At present our occupation of the positions is practically secure."

HIS MAJORITY 1,746,768.

Roosevelt Recieved 2 1-2 Million More Votes than Parker.

Chicago, Dec. 24.—The official canvass of the votes cast Nov. 8 for presidential electors was completed today when the result was announced in Minnesota, North Dakota and Washington. The Associated Press is therefore able to present the first table giving the official vote of all the forty-five states. The total vote is 13,508,496 against 13,968,574 in 1900 a decrease of 460,078. The vote was divided as follows: Roosevelt, Republican, 7,627,632; Parker, Democrat, 5,080,054; Debs, Socialist, 891,598; Swallow, Prohibitionist, 260,303; Watson, People's, 114,687; Corrigan, Socialist Labor, 33,433; Holcomb, Continental Labor, 830. Roosevelt received over all others 1,746,768, and over Parker 2,574,578. In 1900 McKinley had 467,046 more than all the other candidates, 869,984 more than Bryan. The vote for Roosevelt was 409,832 more than for McKinley, while that for Parker was 1,277,772 less than that for Bryan.

McKinley polled more votes than Roosevelt in Alabama, Georgia, Kentucky, Louisiana, Maine, Maryland, Mississippi, New Hampshire, North Carolina, South Carolina, Tennessee, Texas and Virginia. Roosevelt got more votes than McKinley in the thirty-two other states. Parker received more votes than Bryan in Delaware, Georgia, Mississippi, New Jersey, New York, Rhode Island, South Carolina and West Virginia. While McKinley got more votes than Parker in the thirty-seven states, the Republicans made gains over the Democrats in 1900 in thirty-two states. The total gains of the Republicans were 733,043, and the total losses were 312,349, a net gain of 420,694.

of 419,799. The Democrats polled more votes in eight states than in 1900, but fewer in thirty-seven. Their total gains were 30,792 and the total losses 1,291,491, a net loss of 1,260,698. Roosevelt carried thirty-two states against twenty-eight carried by McKinley, and has 336 electoral votes under the apportionment of 1900. McKinley has 292 votes under the apportionment of 1880, there having been an addition of twenty-nine by the last apportionment. Parker carried thirteen states against seventeen carried by Bryan and has 140 electoral votes. Bryan had 155 under the apportionment in force in 1900. Watson received his largest vote in Georgia, the total of that state, 22,634, with 20,509 in Nebraska, being nearly one-third of his aggregate, 114,687. Barker polled 50,218 in 1900. The Prohibition vote in 1900 was 208,791; in November this year 260,303, a gain of 51,512. Four years ago the Socialists had an electoral ticket in thirty-two states and polled 87,769 votes. This year they had a ticket in forty-five states, and the Debs vote was 391,567.

Colorado's Mystery Unsolved.

Colorado Springs, Col., Dec. 24.—Several clues were run down by officers to day without establishing the identity of the young woman slain on Cutler mountain. Mrs. Mamie Swift, who disappeared from this city four weeks ago, was located to day at the home of her brother in Victor. Mrs. Sadie Duran of Pueblo is still missing, but the officers do not believe she was the murdered woman. The city marshal of Manitou, Mr. Cree, reported to-day the disappearance of a young woman, an invalid, who prior to three weeks ago, was living in a tent on the outskirts of that town.
